Entrants can complete the course four (4) times and the highest scored run will be used for qualifying.

For the final entrants will have one (1) run for 10 minutes on the course to score as many points as they can, and the highest scores will be classified the winners for each class.

Points are assigned to each modification, or driver aid fitted as standard to a designated vehicle.

Points allowed per class are as follows:

- Rock – over 12 points

Point assignments per modification/factory fitted modification:

Driver Traction Aids (e.g. TRC, LSD, sway bar disc, etc.)	2 points per aid

### 10.2. 4WD Judging Criteria

Each of the obstacles within the course area is designed to be accessed by different classes of vehicle. Whilst colorings are provided as a guide to the level of difficulty, competitors are encouraged to travel through all obstacles they feel competent to traverse - all points are available, regardless of class.

The skill of the driver and capability of the vehicle in completing obstacles will be used to determine points, and speed itself is not a determining factor in the points earned.

In the unlikely event that all obstacles are completed for the course within the given time limit, officials will signal the competitor their completion, and they should make their way to the exit point in a timely manner.

Should the competitor take longer than the allotted time to complete the course, any points accumulated up until the end of the allotted time will still count towards the competitors score.

Competition	Course Time
Qualifying	5 minutes
Final	10 minutes

#### 10.2.1. Point Scoring/Obstacle Colouring

Obstacles are marked with colours which will reflect their associated point value. To qualify for these points, the vehicle must place two tires on the obstacle for points to be awarded. Competitors can be awarded points at judge's discretion for the partial completion for an obstacle.

There are marked bonus point markers within the course. Bonus points gathered by placing a tyre on top of the bonus point marker three (3) seconds. Each bonus marker can be contacted once only during the stage, multiple contact of the same marker will not accumulate further points.

Colour	Points
Green	5
Yellow	10
Red	20
Black (Bonus)	20

### 10.2.2. Spotter / Navigator

Each competitor is allowed one spotter/navigator for their entry.

The spotter is not permitted to push or pull the competitor vehicle during its time on the course,

If the spotter touches the vehicle, a warning will be given by officials. If the this is repeated or continues, DNF will be recorded. Points will be awarded up to where the DNF is called by the official.
